

April 4, 2022

To Whom It May Concern:

The Fred Hutchinson Cancer Center (Fred Hutch) has a Federalwide Assurance (FWA00001920) on file with the Office of Human Research Protections (OHRP), which was originally approved on February 13, 2002 and expires on April 4, 2027. Fred Hutch has registered the following IRB Committees to conduct review of human subject research.

- Committee A / IRB #1: IRB00000021
- Committee B / IRB #2: IRB00000022
- Committee C / IRB #3: IRB00005619
- Committee D / IRB #4: IRB00009831

While we do not provide copies of our membership lists, all four Fred Hutch IRB Committees are registered with OHRP. Additionally, Fred Hutch IRBs comply with federal policies and regulations outlined in 45 CFR Part 46 and 21 CFR Parts 50 and 56.

Please be aware that the Fred Hutch Institutional Review Office (IRO) has policies that preclude IRB members who have a conflict of interest related to any research protocols that the IRB is about to consider from deliberating or voting.

Please contact the IRO if you have any questions or require additional information. Thank you.

Sincerely,

Meghan Scott
Director, Institutional Review Office
